FINAL PROJECT REQUIREMENTS

H680-H681 Capstone: The “default” graduation option for all MS students is the Final Capstone Project of 6 Cr. Hrs., consisting of the sequence H680 and H681.

- H680 HCI Professional Practice 1 (3 cr.)
 - Prerequisites: all core courses in first two semesters.
- H681 HCI Professional Practice 2 (3 cr.)
 - Prerequisites: H680
- The H680/681 course sequence includes a formally scheduled in-class time that students must attend.
 - Students will work on one, final project (typically team-based) that extends throughout the two courses (fall and spring).
 - Students will receive an official grade at the conclusion of each course/semester.
 - Incompletes are NOT permitted.
 - The successful completion of the H680-H681 sequence (along with all other coursework) guarantees timely graduation for all students.

H694 Thesis: Upon permission granted by a faculty member who commits to be a thesis advisor, a student may replace the H680-H681 course with a H694 Thesis (6 credits). This option requires much more proactive commitment, time management, research skills and autonomy to the capstone and is granted only by a faculty member who is willing to accept the student as thesis advisor for at least two consecutive semesters. H694 will be considered completed only after the final thesis has been completed and approved by the thesis advisor and the committee members.

- Students taking the H694 Thesis Option **must take I575 – Research Design** as one of their elective courses. Based on the thesis advisor’s recommendation and the nature of the thesis work, the student may take an alternative research methods course as an elective, if useful to the completion of thesis.

Detailed schedule of each course is updated and published every semester on the [IUPUI Registrar website](#).

HCI Internship (I595) (Equivalent to Elective Courses)

The Informatics Career Services Office assists students with finding HCI-related Internships (e.g., summer semesters) to gain valuable professional experience within the HCI industry prior to graduation. **Up to 6 credits of internships (course I595) may be counted towards elective credits. Credit for an internship should be requested prior to the starting date of the internship since retro-credit is not permitted.** Once approved authorization is given to register for an online credit internship course. Please contact **Career Services (soiccco@iupui.edu)** to learn more about internship opportunities and the credit internship evaluation and approval process.
