Course description:
Acquisitions and Management of Knowledge and Information, formerly known as Collection Development and Management, examines the principles and techniques that guide the development, management, and evaluation of library collections, and the selection of materials in various types of libraries. The course provides students with experience in the major phases involved in starting and developing collections of print and non-print materials: the formulation of collection development plans, the selection of materials in accordance with an institution’s plan, and the evaluation of library collections. It enables students to recognize and respond to challenges and opportunities of special interest to collection developers: intellectual freedom, new information formats, copyright, and resource sharing.

Finally, this course will explore the essential skills needed to manage a library collection in an academic, school, public, and/or special library setting. It will be taught entirely online including web-based readings and resources, threaded discussions, and online presentations and activities.

Student Academic Conduct

There is extensive documentation and discussion of the issue of academic honesty in the IUPUI Student Code of Conduct. Students should be sure to read the Student Code of Conduct. The Academic Handbook states that faculty members have the responsibility of fostering the “intellectual honesty as well as the intellectual development of students,... The faculty member should explain clearly the meaning of cheating and plagiarism as they apply to the course… Should the faculty member detect signs of plagiarism or cheating, it is his or her most serious obligation to investigate these thoroughly, to take appropriate action with respect to the grades of students, and in any event to report the matter to the Dean of Students. The necessity to report every case of cheating, whether or not further action is desirable, arises particularly because of the possibility that this is not the student’s first offense, or that other offenses may follow it. Equity also demands that a uniform reporting practice be enforced; otherwise, some students will be penalized while others guilty of the same actions will go free.” (p. 172). Student Accommodations for Disability

The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities.

Students needing accommodations because of disability must register with Adaptive Educational Services and complete the appropriate form before accommodations will be given. The AES office is located in Taylor Hall Room 127, 815 W Michigan St Indianapolis, IN 46202 and may be reached by phone 317/274-3241 or 317/278-2052 TTD/TTY; by fax 317/274-2051; or by email aes@iupui.edu.
